SYSTEM REQUIREMENTS

Operating System

Your computer must have Microsoft Windows 95, Microsoft Windows 98, Microsoft Windows NT 4.0, or higher versions of these operating systems.

Disk Space

This program requires approximately 14 megabytes of space on your hard drive.

Hardware

 A mouse or pointing device is required.

To access our web site you must have a modem and a connection to the Internet.

 In order to hear sounds you must have a sound card and speakers.

INSTALLATION INSTRUCTIONS

CD-ROM Installation

USING WINDOWS 95, WINDOWS 98, OR WINDOWS NT 4.0

1. Place the CD into your CD-ROM drive.
2. In the start-up screen click on START, then click on RUN.
3. Type in D:\CDSETUP and press Enter. (If your CD-ROM drive is not D, then change it to the letter associated with your CD-ROM drive.)
4. Follow any instructions that appear on the screen.

Game Menus

During the demo mode, select any key or move the mouse or joystick to bring up the game menu. To hide the menu, either wait a while, or hit the <ESC> key. When a menu item is highlighted, hit the spacebar or <Enter> to select that item, or choose the appropriate fire button on your mouse or joystick.

Starting a Game

To start, choose ‘Play’ from the main menu with the arrow keys and select using the spacebar on your keyboard, or use the mouse or joystick and hit the appropriate fire button.

INTRODUCING FROGGY

He's cute, he's cool, and he's the only frog alive who can't swim! Worse yet, a crazy French chef is trying to catch Froggy to make a frog legs dinner! The chase is on. Froggy must escape by hopping through highways and rivers, while avoiding getting hit by traffic or drowning in the water. He must hop between cars to cross the city streets and onto logs to cross the rivers and ponds.

To pass each level, Froggy must find the home position, as indicated by the icon on the right. Be careful!

There is a time limit for each level, so Froggy must hurry.

SCORE BAR

The total score, number of lives remaining, and time remaining are indicated on the floating score bar. Froggy keeps track of the lives left by counting on his webbed hand, as indicated on the left. The score and timer are indicated as numbers on the top of the screen. Froggy should keep a close reptilian eye on the timer, because he'll loose a life if he can't make it to the home square before the timer expires.

TRAFFIC

In order to find his way to the home position, Froggy must pass dangerous streets filled with traffic. He should avoid being hit by hopping between the cars.

WATER

Froggy must hop onto the logs to cross the water. Remember, he can't swim, so be careful!

BONUSES

Special bonuses will randomly fall out of the sky. When Froggy catches them, interesting things will happen.

EXTRA TIME

Adds extra time to the level timer.

FREEZE

Cars and logs will be frozen for a few seconds.

HEAVY TRAFFIC

Increases the amount of traffic on the streets.

HASTE

Allows Froggy to move extra fast.

MYSTERY

Life is like a box of chocolates.

POINTS

Bonus points are awarded.

SLOW

Slows Froggy down, like he just ate a big meal of flies.

WALK ON WATER

For a few seconds Froggy can walk on water.

TIMER

Some bonuses, such as 'Walk on Water' have a time limit. When the timer icon (to the left) is displayed, that means the time in which the bonus is active is limited, so Froggy should be careful.

CONTROLS

Controlling Froggy is easy! Use the keyboard, the joystick, or the mouse.

MOVING

Use the four arrow keys on the keyboard, the mouse, or the joystick to move in all directions.

Showing the Menu

The <ESC> key on the keyboard can be used to toggle the menus on/off.

Accessing the Pull-Down Menus

Hit the <Alt> key on the keyboard or the F10 function key to get the mouse cursor back. You can then use the Windows™ style pull-down menus on the game window. To re-activate the game, simply click inside the game window, or choose the 'Game' pull-down menu and select 'Back to Game'.

Keyboard Commands
